

Joint Danish Acoustic Seminar

22 November 2007

Science Park NOVI, Niels Jernes Vej 10, 9220 Aalborg Oest
Auditorium

Danish Acoustical Society, Akunet and Makunet invite to an exciting joint seminar with international and domestic recognized speakers. At the seminar status on various acoustical fields will be presented.

- 9:00 Arrival and coffee
- 9:15 Introduction
- 9:30 C. M. Morfey, and M C M Wright: Lighthill's acoustic analogy: Recent developments with application to computational aeroacoustics
- 10:30 Michael Bockhoff: Acting on the source – Principles of low noise design
- 11:30 Coffee
- 11:45 Søren Bech: Descriptive analysis: a tool for analysis of perceived sound
- 12:45 Lunch
- 13:45 Christian Sejer Pedersen, Henrik Møller, Kerstin Persson Waye: An Investigation of twenty-one cases of low-frequency noise complaints
- 14:15 Steffen Pedersen, Henrik Møller, Kerstin Persson Waye, Søren Krarup Olesen: Indoor measurements of low-frequency noise for annoyance assessment
- 14:45 Discussion and optional visit to the low-frequency laboratory
- 16:00 Departure

Practical information

Participation fee is dkk 500,- per person. This covers coffee, lunch, administration fee etc.

Enrolment is made via: <http://www.nc.aau.dk/>. Giro cheque is forwarded together with confirmation of participation.
